

LVT Inlay Strips

GROUTING STRIPS

Grouting Strips have been developed to add to the authenticity of the overall floor. Typically laid between tiles, they can really bring an installation to life. Grouting Strips can also be utilised to create a room perimeter or feature area, such as around island units. As a tip, they can be used as a subtle close-to-tile colour addition or as a contrasting highlight effect.

MARQUETRY STRIPS

Used in a similar way to Grouting Strips, the Marquetry Strips are offered to create that authentic and highly desirable detailed wood floor installation. They can be laid between planks to create a 'ships decking' effect or as a perimeter or highlight feature.

FEATURE STRIPS

The Feature Strips provide an alternative look to the Grouting and Marquetry options, providing a bolder and more graphic look to the installation, which are also inlaid with tiles and planks.

DESIGN TIP: It is worth noting that although the Grouting Strips are ideal for the stone tiles and the Marquetry Strips suit the wood planks, they can be mixed and matched between tiles and planks to further create a unique look.

NOTE: As the Grouting and Marquetry Strips are cut from natural wood and stone designs, there will be variation in markings and decoration.

Luxury Vinyl Tile Inlay Strips

Grouting, Marquetry and Feature Strips
